Nguyen Khac Thinh

Dien Ban, Quang Nam **6** 0911 091 506 ■ ngkhacthinh29@gmail.com https://e-thin.github.io/portfolio/

With a passion for information technology, particularly in backend development, I hope to learn and contribute to the growth of the company. I am committed to working diligently to develop programming skills, optimize databases, and build robust backend systems, thereby improving application processes and performance. I aspire to participate in real-world projects, apply new technologies, and contribute to the effective implementation of technological solutions that meet business needs and create long term value for the company.
